

Channel Lineup for Digital & Analog TVs

NASA Headquarters

September 2014

NASA HQ Cable TV service is provided by Washington Cable. The channel lineups below do not apply to other providers, such as the provider you may use at home.

Channel numbers differ for digital (newer) TVs and analog (older) TVs. Most TV's at NASA HQ are digital. If you cannot get the Cable News Network (CNN), you may have an analog TV. Refer to the respective tables below.

Channel Lineup for Digital (newer) TVs

- The number you input to locate a channel on any given TV at HQ may be different than the number shown below. Your best bet on a digital (newer) TV is to use the Guide feature.
- In the new digital system, channels may have “sub-channels,” which may be high definition (HD) or standard definition (SD).
- NASA has a new digital channel - Channel 70. Its 4 sub-channels are detailed below.

| Channel | Call Letters | Station Name (Affiliation) | Multicast Sub-Channels |
|---------------|--------------|----------------------------|------------------------|
| 4 | WRC-DT | WRC (NBC) | 1 HD + 2 SD |
